### **DETAILED ACTION**

1. This Office Action is in response to the communications dated 11/20/2003 through 09/26/2005

Claims 1-13 are active in this application.

Applicant made a provisional election without traverse to prosecute the invention of Species I, claims 1-5, drawn to method of fabricating vertically integrated circuit in the Response to Restriction Requirement filed 09/26/2005.

Claims 6-13 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a non-elected group there being no allowable generic or linking claim.

Applicant has the right to file a divisional application covering the subject matter of the non-elected claims.

This application claims benefit of the provisional application no. 60/428, 125 filed 11/20/2002, and is a CIP of patent application no. 09/950,909 filed 09/12/2001.

### **Specification**

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is

Art Unit: 2818

requested in correcting any errors of which applicant may become aware in the specification.

### **Claim Rejection - Double Patenting**

3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

4. Claims 1-5 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1 and 21-22 of prior U.S. Patent No. 6,875,671. This is a double patenting rejection.

**Conclusion**

5. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the day of this letter. Failure to respond within the period for response will cause the application to become abandoned (see M.P.E.P 710.02(b)).
